Email: [aadijain1903@gmail.com](mailto:aadijain1903@gmail.com)

Mobile: +91-7310691795

## SKILLS

- **Languages:** C, C++, Java, JavaScript, Apex, Bash
- **Frameworks/ Libraries:** HTML, CSS, React, SpringBoot, Java Swing, Microservices
- **Cloud/DevOps:** AWS, Docker, Kubernetes, GitHub Actions, CI/CD Pipelines, Jenkins
- **Tools/Platforms:** Salesforce, MySQL, Firebase, Git, GitHub, Vercel, Render, Linux, Ubuntu
- **Soft Skills:** Problem-Solving, Teamwork, Agility, Adaptability, Collaboration

## INTERNSHIP

### Infosys Springboard (Virtual Internship)

Nov' 25 - Jan' 26

Web Development Intern

- Developed a web-based medical tracker application to efficiently manage and organize patient health digitally.
- Implemented secure user authentication and integrated real-time cloud data storage using Firebase backend services.
- Designed responsive user interfaces along with structured data flow to support efficient medical data management.

**Tech:** Web Technologies, Firebase

## PROJECTS

### Enterprise DevOps CI/CD Pipeline with Kubernetes | [GitHub](#)

Feb' 26 - Mar' 26

- Built an end-to-end CI/CD pipeline integrating Git, Jenkins, SonarQube, and Nexus for automated code build, testing, validation, and artifact lifecycle management across multiple pipeline stages.
- Configured Kubernetes cluster and implemented Docker-based containerization with RBAC and Trivy-based vulnerability scanning to detect security issues during each deployment cycle.
- Enabled automated deployment workflow from code commit to Kubernetes cluster, reducing manual steps, ensuring consistent releases, and improving overall build and deployment reliability.

**Tech:** Jenkins, Kubernetes, Docker, Git, SonarQube, Nexus, Trivy, Linux, CI/CD

### CloudCostLens - AWS Service Recommendation & Cost Planning Tool | [Live](#)

Jan' 26 - Feb' 26

- Deployed a rule-based AWS architecture recommendation system that evaluates scalability, availability, budget constraints, and workload inputs to suggest optimized cloud service combinations.
- Engineered a clear architecture flow representation to map service dependencies, request lifecycle, and cost-performance trade-offs across different cloud deployment scenarios.
- Containerized and deployed the application using Docker, and implemented Terraform-based infrastructure provisioning to enable consistent, scalable, and reproducible deployments across environments.

**Tech:** Spring Boot, React, Docker, Terraform, Rule-Based Logic

### SpeakPeak - AI Mock Interview Platform | [GitHub](#)

Jun' 25 - Jul' 25

- Created an AI-powered mock interview platform that simulates interview scenarios, generates questions, and evaluates user responses using API-based feedback mechanisms.
- Established a responsive interface with question handling and real-time interaction for a smooth interview experience.
- Integrated a practical interview preparation workflow allowing users to track performance, repeat sessions, and improve confidence for real technical and HR interviews.

**Tech:** React, Vapi, Firebase

## CERTIFICATIONS

- AWS Academy Graduate - Cloud Architecting | [Link](#) Jan' 26
- OCI Developer Professional - Oracle | [Link](#) Sep' 25
- OCI Foundations Associate - Oracle | [Link](#) Aug' 25
- Programming Using Java - Infosys | [Link](#) Jun' 25
- AWS Academy Certified - Cloud Practitioner | [Link](#) May 25

## ACHIEVEMENTS

- Solved 200+ DSA problems on LeetCode, strengthening problem-solving and algorithmic skills Mar' 26
- Completed GenAI Academy (Google Cloud) – Hands-on labs on AI and cloud technologies Jun' 25
- Participated in a Hackathon – Built “Find Your Event” web application Mar' 24

## EDUCATION

- **Lovely Professional University** Phagwara, Punjab  
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.4** Since Aug 2023
- **Silver Bells Public School** Shamli, Uttar Pradesh  
Intermediate; **Percentage: 73%** Apr' 22 - Mar' 23
- **St. Francis School** Shamli, Uttar Pradesh  
Matriculation; **Percentage: 80%** Mar' 20 - Feb' 21
